

# Lakeland Catholic's Winter Weather Wonders

How do you decide if buses are cancelled?

Our transportation department and bus contractors look at road conditions, visibility, temperature, weather warnings, and travel advisories when considering bus cancellations.

If my child(ren)'s bus isn't running, does that mean there is no school?

Not necessarily! Most schools remain open even when buses are cancelled, so be sure to check your school's social media page or contact the school directly with any questions.

How do I find out if my child(ren)'s bus is running?

All cancellations and delays are shared on our Bus Status App and on our division website: [lrcssd.ca](http://lrcssd.ca). When most buses are cancelled, LCSD will share this information on our social media accounts. Bus drivers will often notify parents via text or phone call. Individual schools will also share this information on their social media pages.

How cold is too cold?

When the temperature dips below -40 or -45 with a wind chill, schools remain open, but buses are cancelled.

Why are buses cancelled?

If our transportation department deems the roads are unsafe for drivers or the temperatures dip below -40 or -45 with a wind chill, buses will be cancelled for either the morning, afternoon, or full day.
